EXPERIENCE

Fullstack Developer - Transkriptor

September 2023 – May 2025

- Designed and implemented a custom **content management system (CMS)** using **Python**, **AWS Lambda**, **DynamoDB**, and **S3** to support multilingual content updates without developer involvement.
- Developed and launched **6+ production websites** using **Next.js**, **React**, and **Vercel**, with reusable components and dynamic localization support.
- Managed a **5-person team** across content creation, UI design (**Figma**), and development, overseeing the full workflow from planning to deployment.
- Built automation workflows with **n8n** to streamline translation, publishing, and analytics across **40+ localized websites**.
- Implemented **Amplitude** to support **A/B testing** and track user engagement, helping growth teams improve conversion rates.
- Led **technical SEO improvements**, increasing organic traffic by **50%** through performance tuning, structured data, and **Screaming Frog** audits.
- Rebuilt the **Speaktor mobile app** using **Flutter**, delivering **40+ features** with **GetX** for state management and **Firebase Firestore** for real-time data sync.

Android Developer Intern - Appcent (Kadıköy, Istanbul)

July 2023 – August 2023

- Completed Kotlin-based Android training and developed sample apps using MVVM, Jetpack Compose, Retrofit, Hilt, and local storage tools (Datastore, SharedPreferences).

Mobile Developer Intern - Skyland (YTÜ, Istanbul)

July 2022 – August 2022

- Built a to-do app using React and React Native; presented on Clean Code principles and contributed to both web and mobile development.

EDUCATION

Istanbul Technical University

Maslak, Istanbul

Bachelor of Science in Computer Engineering

Sep 2019 – Aug 2023

- Completed a rigorous program with a strong focus on data structures, algorithms, systems programming, databases, and computer networks.
- Graduation Project – Generative Art Platform:** Developed an interactive web platform using **JavaScript**, **HTML Canvas**, **Node.js**, and **Firebase**.
- Team Project – ClubBee:** Built a mobile UI in **Flutter**, admin panel in **Flask**, and designed the interface using **Figma**.

EXTRACURRICULAR ACTIVITIES

Executive Secretary, Treasurer, Graphic Designer

June 2022 – June 2023

ITU ACM Student Chapter

Maslak, Istanbul

- Organized **algoComp'22**, a national algorithm competition with 1,027 participants; partnered with **DefineX**, led marketing, and coordinated giveaways.
- Served as liaison between the chapter and university, managing documentation, event approvals, and logistics.
- Designed promotional materials for ACM events and created visual content for Instagram, Twitter, and LinkedIn.
- Led a 42-person sponsorship team, contacted 281 companies, and secured agreements totaling 10,000 TRY to support chapter operations.
